

# Testimonials

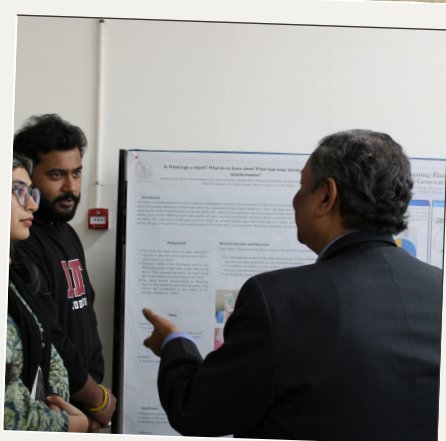

## from our first batch

*As a student at IIT Jodhpur's Computational Social Science program, I have had a fulfilling campus life. The program offers a rigorous academic curriculum combined with exciting research opportunities and a vibrant student community. The people around me, including my peers and professors, have been incredibly inspiring and have challenged me to grow both personally and academically."*

*"As a current student pursuing a Master's degree in CSS, I am thrilled with the education I am receiving. The coursework is challenging and relevant to real world problems. The professors are not just highly knowledgeable but also extremely supportive. The small cohort size provides with excellent opportunities to connect and network with diverse groups of students and professors. I would recommend this programme to self-motivated individuals seeking quality education."*

*"I am indebted for all the efforts made by my professors. I was exposed to cutting-edge technology and tools at IIT Jodhpur, which enabled me to learn in a very natural way. A combination of education, entertainment, and the incorporation of abiding values are provided by School of Liberal Arts, IIT Jodhpur. As I'm studying Computational Social Science, the course material covers a wide range of topics, so I always learn something new. The overall learning environment facilitates learning and fosters the spirit of standing out among the talented and diligent minds."*

*"As a student of Computational Social Science at IIT Jodhpur, I have been impressed with the breadth and depth of academic opportunities available to me. The School of Liberal Arts has provided me with a unique learning experience, allowing me to engage with humanities and social science courses that complement my technical training. Overall, I am incredibly grateful for the stimulating academic environment provided by IIT Jodhpur and would recommend it to any student interested in pursuing Computational Social Science."*

*"IITJ Sola showed me that there are people that do share similar thought process as I do. It felt like home but not a home at the same time. It sounds weird but that's what I feel."*
